EXPERIENCE

Full Stack Developer

Invithi Solutions

October 2024 – December 2024

Greater Noida, India

- Developed a responsive and user-friendly frontend using React.js and Tailwind CSS.
- Built and optimized backend services using Node.js and MongoDB for efficient data handling.
- Integrated AI models and external APIs to enhance overall application functionality.
- Deployed and maintained the platform ensuring high performance, scalability, and security.

PROJECTS

PrepIn: Your AI Companion | Next.js, Clerk, NeonDB, Gemini API, Inngest

Jan 2024 – Feb 2024

- Developed an AI-powered mock interview app that tailors questions based on uploaded Job Descriptions and provides real-time feedback and performance ratings.
- Enabled users to create ATS-optimized resumes and cover letters customized for specific job roles.
- Integrated market analysis feature using Gemini API and Inngest to provide insights on in-demand skills and technologies.
- [Live Demo](#) | [GitHub Link](#)

Thinkify | MERN Stack, JWT Auth, Cloudinary, Vercel

May 2024

- Built a full-stack collaborative platform that fosters meaningful conversations, knowledge sharing, and community-driven engagement.
- Implemented secure JWT-based authentication, role-based access control, and integrated Cloudinary for media upload handling.
- Core features include posts, polls, assignments, resources, task management, and personalized dashboards for admins and users.
- [Live Demo](#) | [GitHub Link](#)

TECHNICAL SKILLS
